

Bozen Brass

La Montanara

What makes 6 musicians go on a world tour? Right, it can only be the search for a beautiful woman.

In their new program "La Montanara", Bozen Brass crosses not only national borders, but also musical borders. While the brass instruments still form the foundation of the group, other instruments such as guitar, accordion, "Steirische Harmonika", melodica and drums contribute to the unique sound of the group. And as if that wasn't enough, they also sing and dance.

Whoever takes such efforts upon himself will also be able to unveil the secret of "Montanara"... Or don't they?
